

# Middle School's Mission Statement:

**"Our mission is to work together as a community to support, encourage, and provide opportunities for middle school children as they grow and change."**

We believe:

1. That middle school is student-focused.
2. That middle level education is unique. The needs of the middle school student are different from those of elementary or high school students.
3. That middle school is a team effort involving all students, their homes, their community, and the school.
4. That communication between home and school is a priority in the middle grades.
5. That every individual involved in our community has a valuable contribution to offer.
6. That we must recognize that middle school students are in a process of constant change. We are dedicated to supporting them in this growth.
7. That it is each person's responsibility to work hard to create and foster a positive climate in our middle school.
8. That we must strive to meet every student's individual needs through flexibility and creativity.
